

# The SCHÄFER non-returnable KEG – in steel!

**Strong. Lightweight. Economical.**

## SCHÄFER non-returnable KEG – benefits that pay

### Benefits of non-returnable over returnable

- No cleaning
- No repair costs
- Exports markets become more attractive:  
no costs for retrieving empties, no KEG loss
- No storage costs for seasonal peaks in demand
- Lower capital tie-up
- Better transport utilization due to lower weight

### Specific benefits of steel over PET

- No special packaging or pallets
- Safety burst point prevents uncontrolled bursting
- Logistics benefits

### General product benefits

- Lightweight
- Completely recyclable
- Can meet seasonal peaks in demand
- System is non-contaminating for food,  
tasteless and odourless
- Beer can be stored for at least 6 months
- Excellent barrier properties (CO<sub>2</sub> and O<sub>2</sub>)
- Can be filled on existing filling plants
- Existing equipment can be used for dispensing

### Technical Data

<b>Content</b>	30.7 litres
<b>Filling volume</b>	30 litres
<b>Height</b>	437 mm
<b>Diameter</b>	400 mm
<b>Weight</b>	approx. 3.5 kg
<b>Material</b>	Flat carbon steel, coated
<b>Material thickness</b>	0.4 mm
<b>One-way flat fitting with inliner</b>	Plastic
<b>Stackability</b>	4 units when full 10 units when empty
<b>Operating pressure</b>	3 bar overpressure
<b>Burst prevention</b>	Safety bursting point
