

New Operations Manager Tapped by Schaefer Container Systems, NA

Frank Tucker has been named Operations Manager for the North American HQ of Schaefer Container Systems.

Atlanta, GA. – July 25, 2016 – Schaefer Container Systems, NA has selected Frank Tucker as the new Manager of Operations for the Atlanta-based headquarters and warehousing facility.

Frank comes to Schaefer with more than fourteen years of experience in operations and logistics and has a decorated track record of success in improving customer service through implementing processes which increase quality and efficiency in production.

“I am greatly looking forward to the opportunity to work with an already well respected brand in the beverage industry,” states Tucker, “and hope that my skills and experience will help Schaefer to continually meet and exceed our customer’s expectations.”

Frank most recently served in the same role at Preferred Precision Group, LLC where he orchestrated warehousing operations throughout the Southeast and Midwest. Prior to this, Frank previously served with SCSNA President, Steve Markham at BLG Logistics, Inc.

“We are extremely excited to have Frank aboard,” remarks Markham, “I know from personal experience the wealth of expertise he brings to our team. He will be a great asset as we strive to meet our customers keg and tank needs.”

SCSNA would also like to officially welcome Kasey Gordon, Team Lead – Operations and Sydney Wesley, Sales Support Specialist. Kasey and Sydney have been valued members of the team since early this year and the Schaefer family is excited to have them join the full-time permanent team.
